

# **Accessibility plan**

## **St Saviour's CofE Primary School**

**Reviewed: Autumn 2022**

**Next Review: Autumn 2024**

## **Aims**

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Applications for admission from all potential students are considered in line with the published admission arrangements;
- Applications for employment are considered and assessed on the basis of the applicants' aptitudes, abilities and qualifications;
- Disabled employees and students have access to the appropriate support and adaptations to enable them to be fully included in the life of St Saviour's;
- The views of individual students or employees are taken into account at all times when their requirements are being assessed;
- All students are fully integrated into the school and individual needs are assessed and supported as far as is practicable within a mainstream educational establishment;
- Employees working with disabled people, either as colleagues or as students, have appropriate information, support and training;
- St Saviour's takes steps to enable employees and students who become disabled during their time at our academy to continue in their chosen career or course of study as far as is practicable;
- Disabled members of the community can fully participate in public events held within St Saviour's;
- So far as is reasonably practicable, St Saviour's premises are accessible and safe for disabled people; and
- No disabled student or employee is treated less favorably as a result of their disability.

## **Disability Code of Practice**

### **Environment**

Any future building projects will be considered at the planning stage for accessibility and usability by people with disabilities.

Evacuation procedures and escape routes for students and employees with disabilities will be carefully planned and published.

### **Children**

Applications will be considered in line with the published admission arrangements for all students.

An applicant's disability will not prevent him/her from being offered a place and integrated into St Saviour's unless:

- The content, structure and delivery of the curriculum are such that the student would be prevented from fulfilling a major part of it; or
- St Mary's would be unable to provide suitably trained employees or facilities to allow the requirements of the National Curriculum to be met.

St. Saviour's will aim to provide students with a disability with the appropriate support to enable them to be fully integrated. St Saviour's will not treat a student with a disability less favorably than any other student and will make reasonable adjustments to ensure the full participation and integration of disabled students.

As far as resources allow, the needs of disabled students will be taken into account in the design, structure and flexibility of teaching methods and delivery. Where a curriculum area is organised in such a way that a disabled student cannot fully participate, alternative provision will be made.

Students with a disability or who become disabled whilst studying at St. Saviour's will be given appropriate support from employees to enable them to have equal access to the curriculum. Individual

needs will be considered and addressed by all curriculum areas.

St Saviour's recognises that special arrangements may be required to enable students with disabilities, including specific learning difficulties, to exhibit their capabilities and knowledge. Special arrangements will be made to enable such students to perform to the best of their ability by meeting their individual needs. Students and parents/guardians will be made fully aware of the process for making special arrangements for assessment and examinations by the Inclusion Manager

## **Employees**

Wherever practicable, St.Saviour's will:

- Consider and seek to employ disabled people in jobs suited to their aptitudes, abilities and qualifications in line with the Equality Act and Disability Discrimination Act
- Ensure that employees with disabilities are considered for promotion according to their aptitudes, abilities and qualifications.
- ensure that disabled employees are not disadvantaged when the renewal of fixed-term contracts is being considered.
- 

Employees who become disabled during their employment, so far as is practicable, will continue to remain employed, subject to review by the Head teacher and the Board of Governors. This review will assess their ability to carry out the duties of their post. Help from related professional organisation's may also be sought when considering not only the possible effects of the disability but also other consequential disadvantages, such as loss of status or financial loss.

St Saviour's will endeavour to make any reasonable adjustments to enable the employee to continue in post. However, options might include:

- Continuing in the same post
- A gradual return to work
- A reduction in hours
- Redeployment
- Premature retirement on grounds of incapacity
- Termination of employment

In cases where a disability is a degenerative, progressive condition that develops over time, careful consideration should be given to the selection of the most appropriate option(s).

St Saviour's will make reasonable changes to work practices and, where possible, the workplace to enable disabled people to work successfully, including those employees who become disabled whilst employed.

Teaching assistants will support teaching staff as required to help ensure that disabled students have equal access to the curriculum.

## **Access Statements**

- Children will be able to access all facilities on each floor i.e. classrooms, library, ICT suite, toilets, and play areas.
- A disabled toilet is available on each floor for those who may require it.
- There will be easy access to the school playground, via two main gates.
- There are lifts installed that access each of the floors

## Action Plan

This action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010.
